DETAILED ACTION

The Restriction dated 5/3/04 has been vacated in favor of this Restriction. The Examiner inadvertently overlooked the Preliminary Amendment dated 3/4/02 which canceled claims 1-26 and added new claims 27-34.

1. Election/Restriction

A. Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 27 and 31-34, drawn to IL3 proteins of various SEQ ID NOs, classified in class 530, subclass 350.
- II. Claim 28, drawn to an IL3 protein of SEQ ID NO:19, classified in class 530, subclass 350.
- III. Claim 29, drawn to an IL3 protein of SEQ ID NO:129, classified in class 530, subclass 350.
- IV. Claim 28, drawn to an IL3 protein of SEQ ID NO:130, classified in class 530, subclass 350.

B. The inventions are distinct, each from each other because of the following reasons:

Inventions I-IV are independent and distinct, each from each other, because they are products which possess characteristic differences in structure and function and each has an independent utility that is distinct for each invention which cannot be exchanged. Each Group encompasses a specific SEQ ID NO which would require a separate search of the sequence databases. Furthermore, in addition, **in order to be fully responsive**, if Applicants elect Group I, they must elect a single SEQ ID NO to be searched.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification and recognized divergent subject matter as defined by MPEP § 808.02, the Examiner has *prima facie* shown a serious burden of search (see MPEP § 803). Therefore, an initial requirement of restriction for examination purposes as indicated is proper.

Art Unit: 1647

C. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR § 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a diligently-filed petition under 37 CFR § 1.48(b) and by the fee required under 37 CFR § 1.17 (h).
